

# femcare™

## Granules

### PRODUCT INFORMATION

-  **Subtle fragrance,** Femcare™ granules utilise a naturally derived essential oil with well-known topical antibacterial properties which work in synergy with the fresh "Eucalyptus" fragrance to provide a strong, pleasant and uplifting aroma.
-  **Natural,** Femcare™ granules are a mineral based carrier that is 100% safe for the environment.
-  **Odour absorber,** within Femcare™ granules permanently bonds to smelly compounds, trapping them away from the nasal receptors making the odours undetectable.
-  **Universal,** Femcare™ granules can be used in most sanitary waste disposal systems.
-  **No transport or carriage issues,** Femcare™ granules are not classified as dangerous.
-  **A fresh fragrance,** with essential oil, natural mineral base, biocidal active and odour absorber.
-  **Article 95 Biocide,** Femcare™ granules contain an article 95 biocide.

## What are Femcare™ Granules

To complement the Femcare™ MVP sanitary disposal unit, Femcare™ granules are available an ideal solution to help keep all sanitary units clean & fresh between servicing.

The granules refresh, sanitize and remove uplesant odours throughout the unit. They can also be used effectively in nappy / diaper disposal waste units, such as Nappyminder®.
