

# Technical Data Sheet

## Product

**SAFESTORE prebait.blank  
cockroach board-metalstrip**

## Code

**CAT-SSPB-CR-PGB-5980**

## Description

An easy-to-use prebaited board coated with Hot melt adhesive and laminated with silicone paper. It is used for cockroach monitoring. Simply place traps where cockroach activity has been observed to monitor infestation levels.

**Ingredients:** Prebaited board trap with an adhesive layer.

**Longevity:** The trap will remain active for 6-8weeks dependent on infestation levels.

**Packaging:** 10 prebaited boards.

## Application

1. Peel off the protective paper from the sticky base.
2. Put the trap in a convenient place where the cockroaches are expected.
3. Check the trap regularly.
4. Dispose of the trap when the sticky base is covered with insects.

## Storage

Store in a cool, dry place out of direct sunlight. Shelf life: 24 months if stored between 5 – 15°C.

## Precautions

Handle carefully and avoid excessive contact with skin.
