

**Aquatain AMF**  
LIQUID  
MOSQUITO FILM

# NEW NON-TOXIC WEAPON AGAINST MOSQUITOES

February 2016

# What is Aquatain AMF?

- Unique silicone-based liquid
- Self-spreads across water surface
- Non-toxic: physical action, reducing surface tension
- Effective for 4 weeks on the surface
- Environmentally friendly - degrades into silicate
  - does not affect fauna and flora
- Mosquitoes can't become resistant to it

- Italia
- Singapore
- Cambodia
- Sri Lanka
- India
- Uganda
- Kenya
- Sudan
- Greece
- France
- Netherlands
- Argentina
- Venezuela
- Jamaica
- Cuba
- UAE
- Australia

# Sri Lanka Medical Research Institute

- ❑ 100% reduction in larvae after 1 day
- ❑ 98% reduction after 2 weeks
- ❑ 91% reduction after 4 weeks (control showed 60% increase)

# Uganda Ministry of Health

Applying Aquatain AMF  
to an infested swamp.

Aquatain AMF spreading  
between the grass

- ❑ 100% reduction in larvae after 12 hours
- ❑ no mortality in control group

# Kenya Medical Research Institute

- ☐ Effective agent for the control of mosquitoes in irrigated paddy fields
- ☐ No negative impact on non-target organisms
- ☐ No impact on rice yield

# Cuba Directorate Of Surveillance, Sancti Spiritus

- ❑ Five polluted sites where other larvicides had been ineffective
- ❑ Almost 100% mortality after 24 hours; maintained for 15 days
- ❑ “Aquatain AMF highly effective in very difficult conditions”

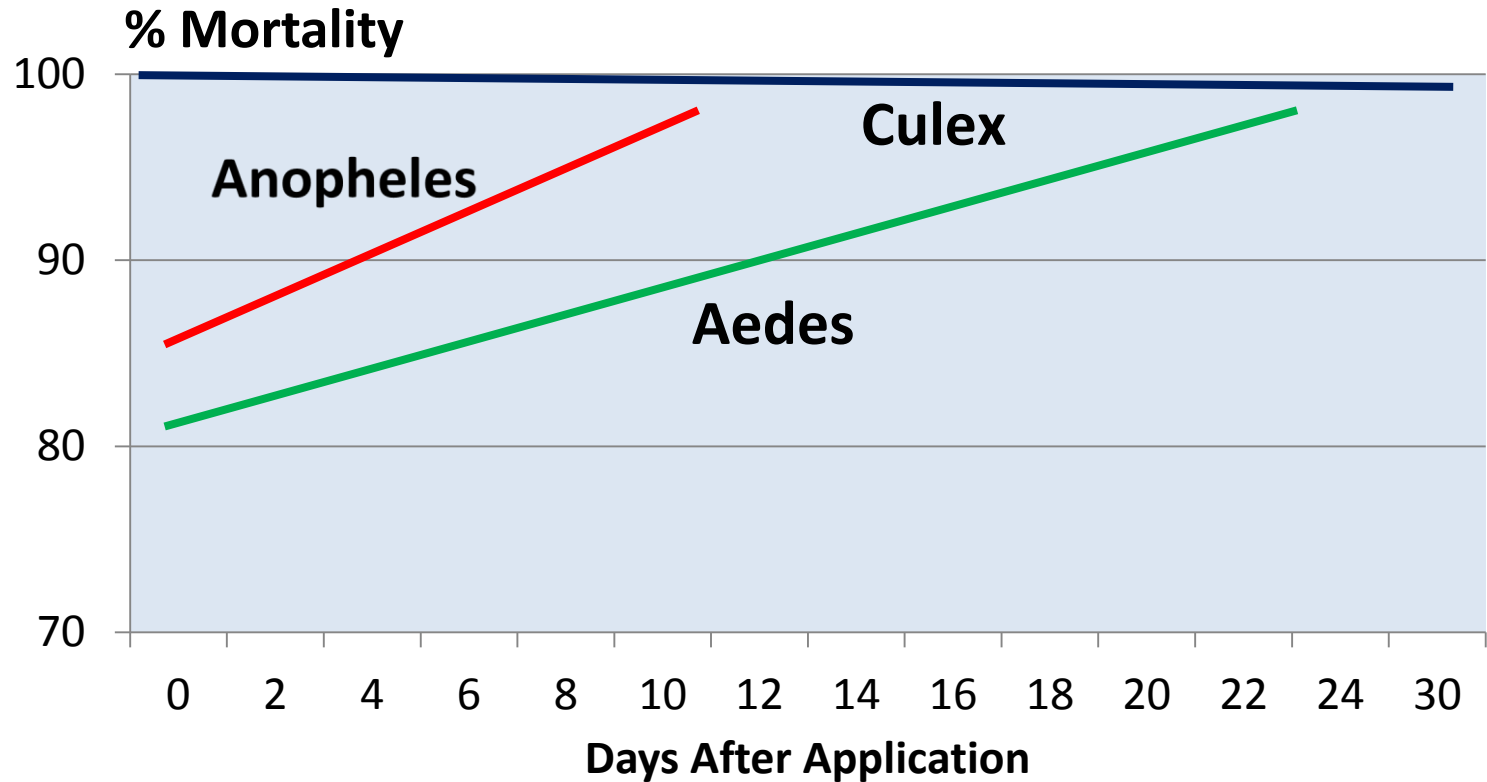

# Greece Directorate Of Plant Produce Protection

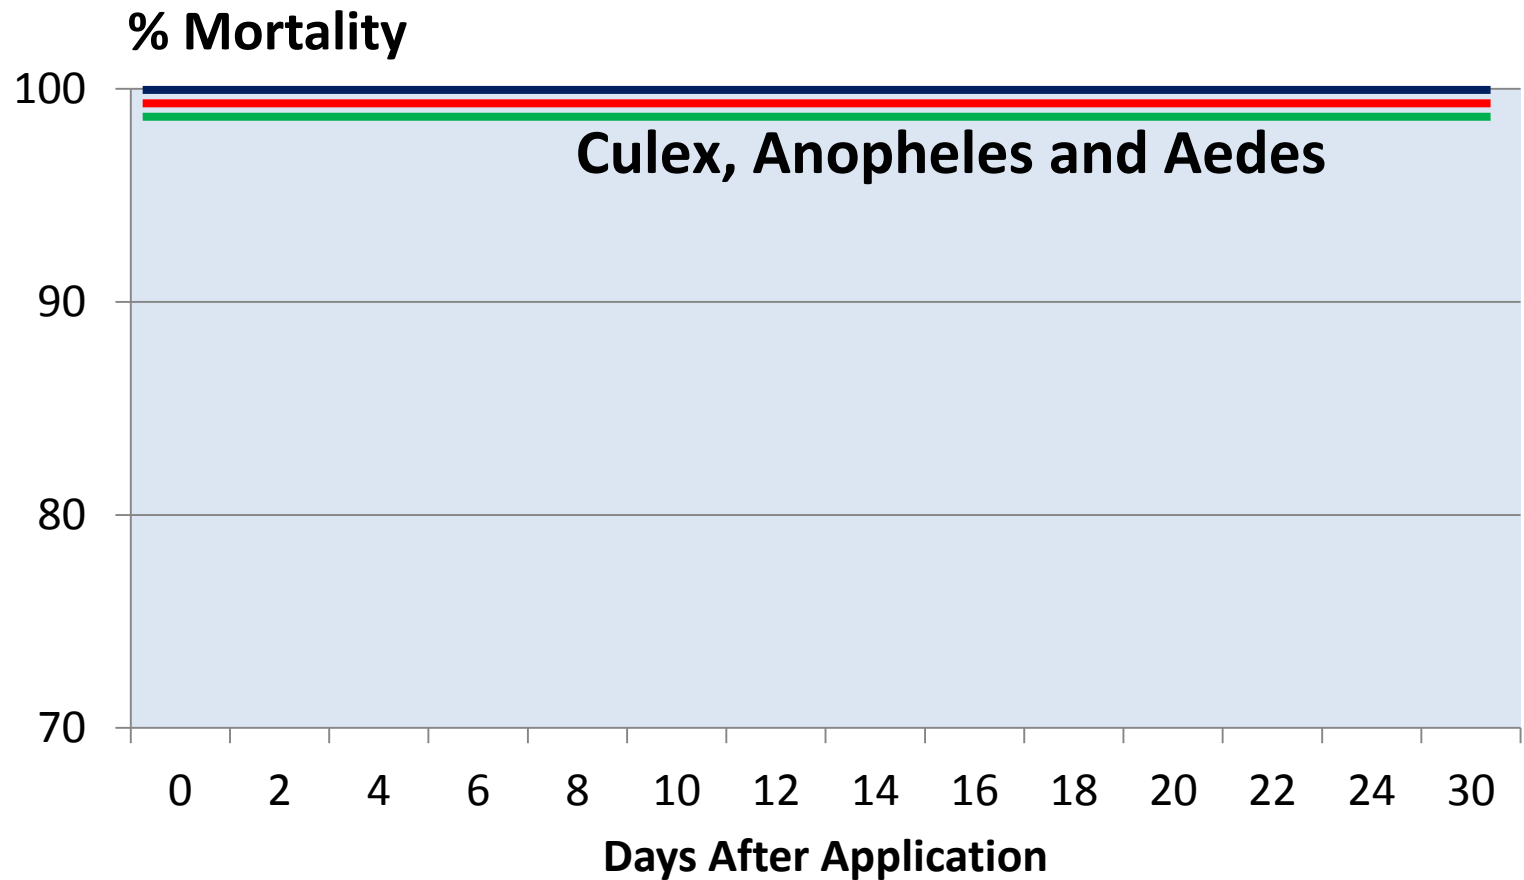

- ❑ Densely vegetated paddy of 3 acres, divided into three Sections
- ❑ 100% larval mortality after 3 days in Section 1; 75% after 25 days
- ❑ Lower mortality in Sections distant from where AMF was applied
- ❑ “Effective control where other means are not effective”

# Larval Mortality Over Time

# Pupal Mortality Over Time

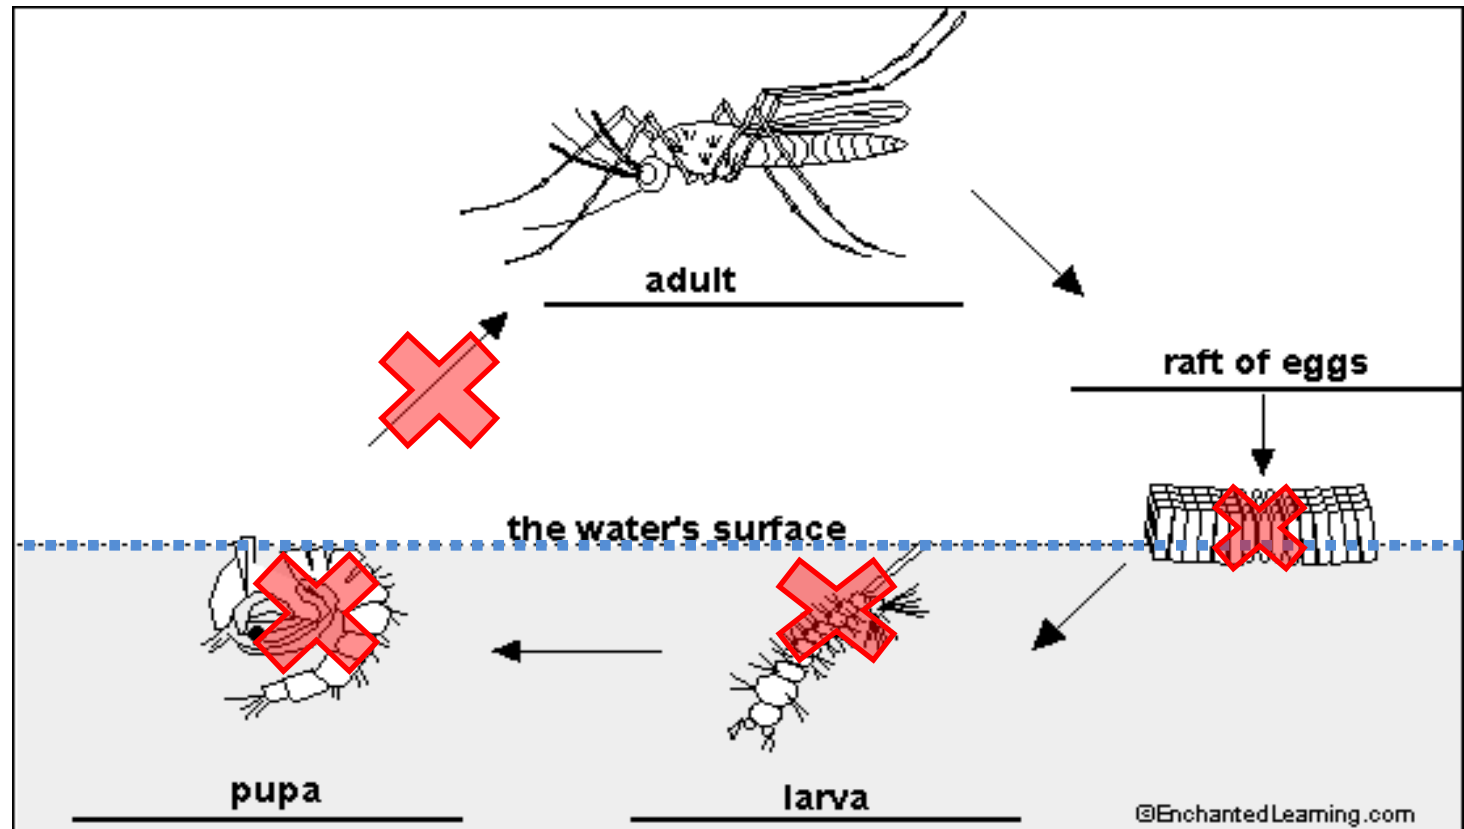

# Other Impacts...

- **No emergence of adults**
- **No eggs laid on the film**
- **Many females drown**

# Aquatain AMF – how it works

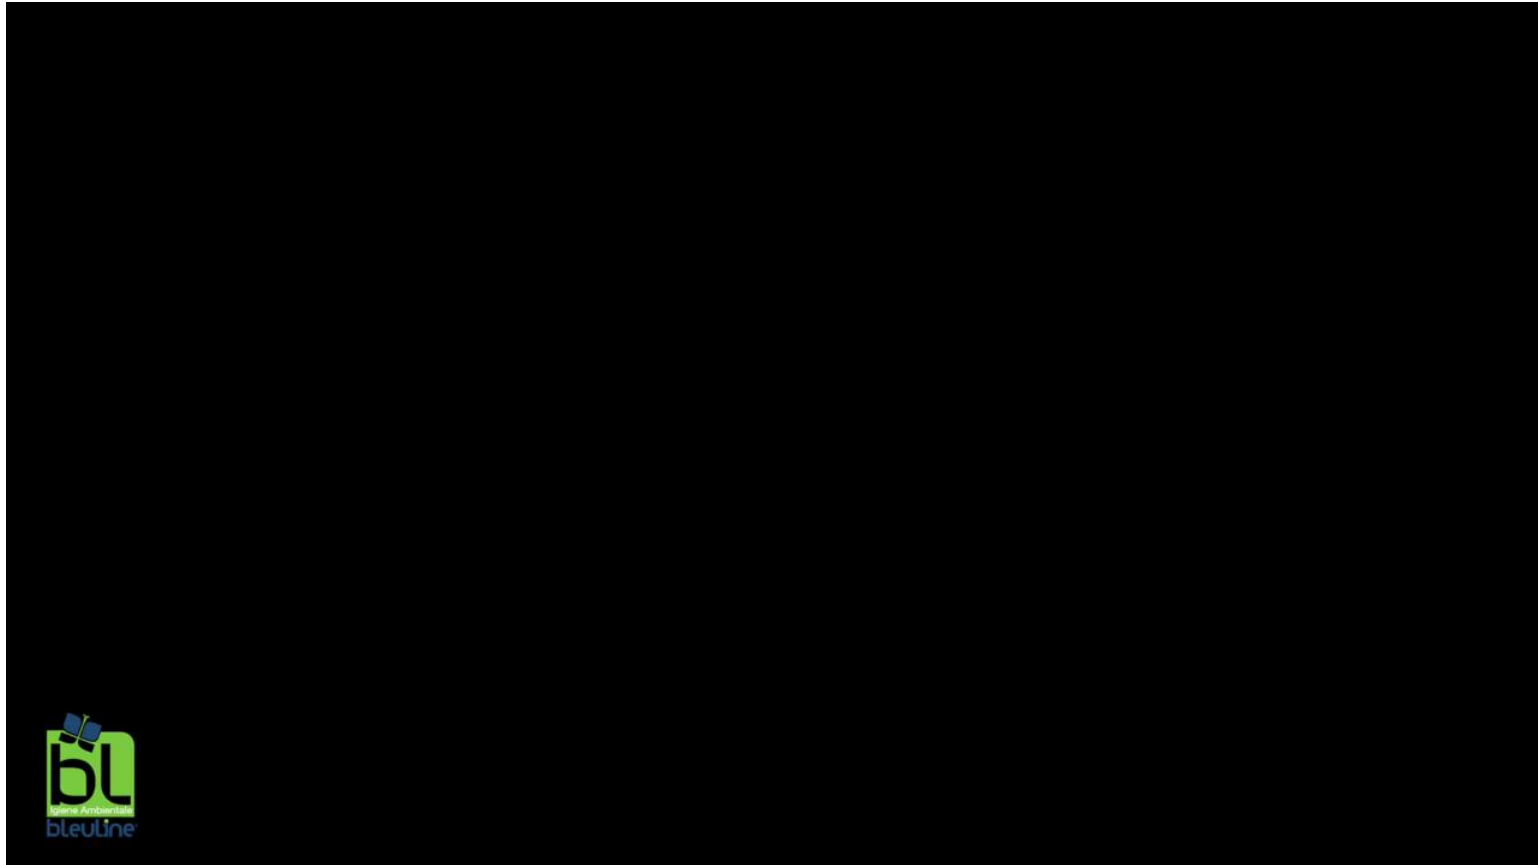

# Larvomatic

## battery operated applicator

- Ideal for application of Aquatain AMF in urban areas (shafts, sewers...)
- Aquatain AMF use becomes easier and more economic (with exact application you don't pour excess product where only 1ml is necessary, the operator covers large area in short amounts of time..).
- The Aquatain AMF use effectively covers both large water body areas by standard one-spot-pour application and urban areas where there are many small spots to treat.

# Larvomatic battery operated applicator
